Product Description

CSA Certified Mini Gas Station C1 for On-the-Go Refueling Solutions

Product Description:

Not only is this Fuel Mobile Dispenser practical, it is also safe to use. It has been certified by both UL Listed and CSA Certified, ensuring that it meets the highest standards of quality and safety.

The Mini Fuel Station runs on a Voltage of 220V, making it a powerful tool for refueling your vehicles or equipment. Its plastic material not only makes it lightweight and easy to move around, but also ensures that it is durable and long-lasting.

With the Mini Fuel Station, you can say goodbye to the hassle and expense of traditional gas stations. This mini gas station allows you to refuel your vehicles and equipment on your own schedule, saving you time and money.

Whether you are a small business owner or a homeowner, the Mini Fuel Station is the ideal solution for your refueling needs. Its compact size and customizable dimensions make it a perfect fit for any location, while its Automatic Nozzle Type ensures that refueling is quick and easy.

Invest in the Mini Fuel Station today and enjoy the convenience and savings of having your own Fuel Mobile Dispenser right at your fingertips.

Applications:

The Virette C1 Mini Fuel Station is equipped with a 220V voltage and has a capacity of 1-8CBM. Its automatic nozzle type and flow rate of 40-60L per minute make fueling quick and effortless.

This Fuel Mobile Dispenser is perfect for a variety of applications and occasions. It can be used in remote areas where traditional fuel stations are not available, making it an ideal solution for campsites, construction sites, and mining operations. Its compact size allows it to be transported easily, making it perfect for emergency fueling needs during natural disasters such as hurricanes and earthquakes.

The Virette C1 Mini Fuel Station is also perfect for small businesses such as landscaping and construction companies that require a mobile fuel station for their equipment. It can be used to fuel generators, mowers, and other small equipment without the need to transport the equipment to a traditional fueling station.

Overall, the Virette C1 Mini Fuel Station is a versatile and efficient mobile fuel station that can be used in a variety of scenarios and applications. Its compact size, automatic nozzle type, and quick flow rate make it an ideal solution for all your fueling needs. Get yours today and experience the convenience of having a mobile fuel station at your fingertips.

Customization:

Customize your Virette Mini Fuel Station, the perfect solution for your fueling needs. Our Fuel Mobile Dispenser is compact and efficient, making it ideal for small spaces. With the Model Number C1, it is manufactured in China and is available at a competitive price range of 1000-5000USD. The delivery time for your customized Mini Gas Station is just 20 days.

Our Mini Gas Station is suitable for gasoline, diesel, and new energy and has a capacity of 1-8CBM. It features an automatic nozzle type and runs on 220V voltage. Additionally, it is UL Listed and CSA Certified, ensuring your safety and peace of mind.
