

NPT2 Diesel Engine Fuel Pump With Strainer Inlet Type Sealing Ring

Our Product Introduction

For more products please visit us on refueling-equipment.com

Basic Information

- Place of Origin: China
- Brand Name: Virette
- Model Number: f0

Product Specification

- Compatibility: Universal
- Inlet Type: Strainer
- Engine: Diesel Fuel Engine Parts
- Outlet: NPT2"
- Type: Electric
- Weight: 15Kgs
- Duty Circle: 30 Min
- Sealing Ring Included: Yes
- Highlight: **NPT2 Diesel Engine Fuel Pump ,
Diesel Engine Fuel Pump With Strainer**

Product Description

Diesel Fuel Engine Parts Fuel Pump with Strainer Inlet Type 15Kgs

Product Description:

The Fuel Pump is a universal product, which means it is compatible with a wide range of vehicles. It is suitable for use in cars, trucks, and SUVs. The Fuel Pump is often used in Filling Station Dispensers and Diesel Fuel Injectors, as well as in other automotive fuel supply systems.

The Fuel Pump is an electric pump, which means it is powered by an electrical current. This makes it more efficient than mechanical fuel pumps, which rely on the movement of the engine to pump fuel. The electric motor in the Fuel Pump is designed to provide a constant flow of fuel to the engine, ensuring that it runs smoothly and efficiently.

The Fuel Pump is designed to deliver fuel at a high pressure, which is necessary for the fuel to be injected into the engine. This high-pressure fuel delivery ensures that the engine runs smoothly and efficiently, with no hesitation or stalling. The Fuel Pump is also designed to be durable and long-lasting, with a 1-year warranty to give you peace of mind.

The Fuel Pump does not come with a sending unit included. However, it is easy to install and comes with all the necessary hardware and instructions. With its universal compatibility and electric operation, the Fuel Pump is an essential component for any automotive fuel supply system.

Features:

Product Name: Fuel Pump

Weight: 15Kgs

Duty Circle: 30 Min

Type: Electric

Float Included: Yes

Compatibility: Universal

This Fuel Pump is a versatile Petrol Pumping Unit that serves as an Automotive Fuel Supply Device. It is an ideal Gasoline Infusion Machine that is equipped with a float and can be used with various types of vehicles due to its universal compatibility.

Technical Parameters:

Outlet:	NPT2"
Float Included:	Yes
Inlet Type:	Strainer
Sealing Ring Included:	Yes
Weight:	15Kgs
Warranty:	1 Year
Sending Unit Included:	No
Engine:	Diesel Fuel Engine Parts
Duty Circle:	30 Min
Type:	Electric

Applications:

The Virette f0 Fuel Pump is a versatile product that is compatible with a wide range of vehicles, making it a universal option for vehicle owners. It is an essential component of the fuel system that supplies fuel to the engine.

The Fuel Pump product has a strainer inlet type that filters out impurities and ensures that only clean fuel is delivered to the engine. This feature is important for the smooth operation of the engine and the longevity of the fuel system.

The Virette f0 Fuel Pump is suitable for use in a variety of scenarios and occasions. It can be used in passenger vehicles, commercial vehicles, and heavy-duty vehicles. It is also a suitable option for use in off-road vehicles and boats.

The Fuel Pump product is particularly useful in situations where the engine is located far away from the fuel tank, as it facilitates the transfer of fuel from the tank to the engine. It is also essential for vehicles that have a Diesel Fuel Injector, as it provides the necessary pressure to deliver fuel to the injector.

The Virette f0 Fuel Pump does not come with a sending unit, which means that it needs to be purchased separately. This is an important consideration for vehicle owners who are looking to replace their existing fuel pump, as they may need to purchase additional components to ensure compatibility.

In conclusion, the Virette f0 Fuel Pump is a reliable and versatile Petrol Pumping Unit that is suitable for a wide range of vehicles. Its compatibility with Diesel Fuel Engine Parts makes it an essential component of the fuel system, and its strainer inlet type ensures that only clean fuel is delivered to the engine.

Customization:

Customize your Virette f0 fuel pump to fit your specific needs with our product customization services. Our electric fuel pump is manufactured in China and is compatible with a wide range of vehicles, making it a universal choice for your petroleum transfer station or liquid fuel dispenser.

Choose from a variety of options, including a 1-year warranty, float included, and NPT2" outlet. Our team of experts is here to help you create the perfect fuel pump for your business. Contact us today to learn more about our product customization services.

Packing and Shipping:

Product Packaging:

One fuel pump unit

Mounting hardware

Installation instructions

Shipping Information:

Weight: 2 lbs

Dimensions: 6in x 6in x 6in

Shipping Method: Standard Ground

Expected Delivery Time: 3-5 business days
