- Outlet: NPT2"
- Inlet Type: Strainer
- Compatibility: Universal
- Type: Electric
- Highlight: Fuel Pump Duty Circle 30 Min,
NPT2" Universal Electric Fuel Pump,
NPT2" Outlet Universal Fuel Pump

Product Description

Universal Compatibility Fuel Pump Duty Circle 30 Min NPT2" Outlet

Product Description:

The Fuel Pump comes with a sealing ring included, which ensures that the pump is securely sealed and leak-free. This is important for preventing any fuel from leaking out of the pump and causing a fire hazard. The inclusion of a float in the Fuel Pump ensures that the pump is able to accurately measure the fuel level in the tank and deliver the correct amount of fuel to the engine.

The Fuel Pump is made of high-quality materials that are built to last. It is a heavy-duty pump that is built to withstand the rigors of daily use. Despite its rugged construction, the Fuel Pump is also lightweight, weighing in at only 15Kgs. This makes it easy to handle and transport, making it an ideal choice for mechanics and DIY enthusiasts alike.

Whether you're in need of a diesel fuel injector, petrol pumping unit or gasoline transfer pump, our Fuel Pump is a reliable and versatile choice. Its universal compatibility, sealing ring, and float make it a must-have for anyone who needs a high-quality fuel pump for their vehicle.

Features:

Product Name: Fuel Pump

Inlet Type: Strainer

Float Included: Yes

Warranty: 1 Year

Compatibility: Universal

Type: Electric

This Fuel Pump product is perfect for those in need of a reliable Diesel Fuel Injector, Fuel Dispensing Pump, or Petrol Pumping Unit. With its strainer inlet type and included float, it's a versatile and dependable option for any fuel system. Plus, it comes with a 1-year warranty for added peace of mind.

Technical Parameters:

Product Attribute	Value
Warranty	1 Year
Inlet Type	Strainer
Weight	15Kgs
Sealing Ring Included	Yes
Duty Circle	30 Min
Type	Electric
Outlet	NPT2"
Compatibility	Universal
Float Included	Yes
Sending Unit Included	No

Applications:

The Virette f0 fuel pump is designed to work with diesel fuel injectors, ensuring that the engine receives the right amount of fuel for optimal performance. The pump is suitable for use in various scenarios, such as in buses, trucks, and other heavy-duty vehicles. With its reliable performance and quality construction, the Virette f0 fuel pump is perfect for use in industrial settings where fuel supply is critical. Whether you are running a fleet of vehicles or operating heavy machinery, this pump can provide you with the fuel supply you need to keep your operation running smoothly.

The Virette f0 fuel pump is an excellent choice for automotive fuel supply devices. With its durable construction and reliable performance, this pump is ideal for a wide range of applications. If you are looking for a fuel pump that can provide you with the performance and reliability you need, the Virette f0 is an excellent choice.
