Basic Information

- Place of Origin: China
- Brand Name: Virette
- Model Number: f0

Product Specification

- Float Included: Yes
- Compatibility: Universal
- Outlet: NPT2"
- Sending Unit Included: No
- Warranty: 1 Year
- Type: Electric
- Duty Circle: 30 Min
- Inlet Type: Strainer
- Highlight: **NPT2" Electric Fuel Pump,
Electric Fuel Pump With Strainer,
NPT2" Fuel Pump With Strainer**

Product Description

Inlet Type Strainer Electric Fuel Delivery System with Float Included

Product Description:

With a duty circle of 30 minutes and an outlet of NPT2", this Fuel Pump is designed to handle high-volume fuel transfer with ease. Its durable construction and high-quality materials ensure that it will provide reliable service for years to come. One of the key features of our Fuel Pump is that it comes with a sealing ring, which helps to prevent leaks and ensure safe and efficient fuel transfer. In addition, this Fuel Pump does not include a sending unit, which makes it ideal for use in a variety of applications. With a weight of just 15Kgs, our Fuel Pump is easy to install and move as needed. Whether you need to transfer fuel from one tank to another or fill up vehicles at your filling station dispenser, this Fuel Pump is the perfect choice. Overall, if you're looking for a reliable and efficient fuel pump for your business or organization, you can't go wrong with our Fuel Pump. With its high-quality construction, sealing ring included, and easy-to-use design, it's the ideal choice for a wide range of fuel transfer applications.

Features:

Product Name: Fuel Pump

Type: Electric

Engine: Diesel Fuel Engine Parts

Sending Unit Included: No

Sealing Ring Included: Yes

Duty Circle: 30 Min

This Fuel Pump is perfect for use in a Filling Station Dispenser or as a Fuel Dispensing Pump. Its electric type and compatibility with Diesel Fuel Engine Parts make it a reliable choice. Plus, it comes with a sealing ring included for easy installation and a duty circle of 30 minutes.

Technical Parameters:

Weight	15Kgs
Outlet	NPT2"
Engine	Diesel Fuel Engine Parts
Sealing Ring Included	Yes
Duty Circle	30 Min
Inlet Type	Strainer
Sending Unit Included	No
Compatibility	Universal
Type	Electric
Warranty	1 Year

This Automotive Fuel Supply Device is a type of Gasoline Infusion Machine that can be used as a Filling Station Dispenser.

Applications:

The Virette f0 fuel pump is an electric fuel delivery system that is perfect for cars, trucks, and other vehicles. It is lightweight, weighing only 15Kgs, which makes it easy to install and operate. This electric fuel pump is also designed with an inlet type strainer that filters out contaminants and impurities from the fuel, ensuring that only clean fuel is delivered to the engine.

The Virette f0 fuel pump is suitable for use in various application scenarios. It can be used in high-performance vehicles that require a high flow rate of fuel, such as sports cars, racing cars, and muscle cars. This petrol pumping unit is also ideal for use in commercial vehicles such as trucks, buses, and vans, where reliable and efficient fuel delivery is essential.

Whether you are driving on the highway or in the city, the Virette f0 fuel pump is an excellent choice for your vehicle. It is designed to deliver fuel at a consistent rate, ensuring that your engine runs smoothly and efficiently. This electric fuel pump is also equipped with an NPT2" outlet that makes it easy to connect to your vehicle's fuel line.

In conclusion, the Virette f0 fuel pump is a reliable and high-quality petrol pumping unit that is perfect for use in various application occasions and scenarios. It is an electric fuel delivery system that delivers fuel efficiently to your vehicle's engine. This fuel pump is lightweight, easy to install, and designed to filter out impurities from the fuel. If you are looking for an electric fuel pump for your vehicle, the Virette f0 fuel pump is an excellent choice.
